## VIRTUAL EMEA HOTEL SUPPLY CHAIN FORUM 2021

Virtual EMEA Hotel Supply Chain Forum is the premier business forum for the European, Middle Eastern and African hotel sector. Purchasing executives from leading hotel groups and operators are brought together with key hotel sector suppliers to discuss supply chain opportunities and supply solutions. Virtual EMEA Hotel Supply Chain Forum is a business meeting hub that delivers high-level business opportunities to hotel purchasing executives. There are no travel costs, and no time away from your desk or office. Supplier meetings are brought directly to your PC, saving you time and cost while improving the efficiency of your supplier sourcing and reviewing process.

One-to-one appointments take place between hotel purchasing executives and suppliers, where detailed conversations can take place and supply chain opportunities can be discussed. Our virtual platform provides delegates with the ability to hold a high number of key one-to-one meetings, and each delegate works to their own personal schedule of appointments which are pre-set before the forum commences. Additionally, delegates can network in our virtual lounge area, so additional supply chain appointments can be discussed.

All areas of hotel supply chain will be covered, including food and beverages, housekeeping, furniture, fixtures and equipment, hotel interiors, IT and communications, facilities management... plus more!

Purchasing executives from hotel groups and operators can attend Virtual EMEA Hotel Supply Chain Forum on a **fully complimentary basis**, which includes:

- Your personal schedule of one-to-one appointments
- The ability to select meetings with specific suppliers
- Access to our virtual lounge area
- Your forum booklet which provides full contact information and company profiles of all delegates

You shall have the ability to meet face-to-face with suppliers via Virtual EMEA Hotel Supply Chain Forum 2021, the leading supply chain forum for the hotel sector.
